Artwork Overview

Customers must use Tripack supplied artwork templates for all sleeve designs. Refer to the "Tripack Artwork Guidelines" doc for detailed instructions on setting up art files to maximize design potential.

Artwork Proof: PDF will be emailed (2-3 working days). All sleeves are printed in CMYK ink values from final approved PDF file. PDF proofs should be utilized to proof content only. They should NOT be utilized to proof color accuracy due to color variance on office printers and monitors.

Press Proof: \$150/SKU (5-7 working days from initial PDF approval) This is a flat printout of the sleeve shipped to you for approval.

Can Mock-Ups: \$350/each (7-10 working days from initial PDF proof approval). Can Mock-Ups are hand-made and for visual representation only. Seams and final appearance are not indicative of production quality.

Other Conditions

- Order Quantity Overage/Underage: 5% allowance
- Shipping cost available by request

Warehousing: Available by request

Cancellation:

- Sleeved Orders: All orders are final. No refunds will be provided for a sleeved order that has been canceled.

3. CREDIT CARDS: Visa or Mastercard = 3% Fee

Shipping

- Shipping charges are NOT include in unit pricing for cans and packaging material.
- SHIP DATE will be provided upon receipt of 1st payment.
- A ship date is an estimate on the date the product is ready to be shipped, NOT delivered on. Please allow necessary transit time and possible delays in your planning from ordering to receipt.

- Appointments required for customer arranged shipping.
- Expedited orders are available for \$0.03 can upcharge, if for any reason the order is not able to meet its ship date the expedited fee is removed.
- Please bear in mind LTL rates fluctuate based on location or deliver, season and weather which can add cost and/or time to your transit.
- Tripack will provide transportation pricing upon receipt of order.
- Freight estimates can be provided prior to order, upon request.
- Please submit an email with pallet count and destination zip code to your assigned sales representative.
- Tripack is not responsible for delays in shipping.

Damage in Transit

- PLEASE NOTE: A nominal amount of dented or damaged cans should be expected from shipping. The customer will have to allow for this.
- In the event of excessive damage please follow these steps immediately:
 - Document damage on the BOL, as detailed as possible.
 - Driver signature on the BOL acknowledging the damage.
 - Take pictures prior to/during unloading.
 - Take a detailed count of the quantity damaged.
 - Be sure to provide damage count, pictures of damage and scan or photo of the signed and documented BOL.
 - File a claim with the carrier if damage is excessive, Tripack will assist you filing the claim but is not responsible for the damage in transit.
 - Provide your assigned sales representative with the above information.

We are DSP licensed, bonded and insured to sleeve filled or unfilled cans.
